# Vision Get Wild 12 Years

## About Us

Vision Get Wild, pronunciation in mandarin is similar to boldness, meaning that we encourage every student and participant to keep the enthusiasm in design and the energy of creativity, and never put limitations on yourself.

From the beginning with 500 visitors in 2011 to over 10 thousands join the event in 2021, we have achieved a remarkable and irreplaceable result in digital content exhibition.

The event is organized as a non-profit, amiable platform where new talents could fully devote themselves. In the past 10 years, the exhibition offers Taiwanese students with a respectful environment to express their imaginations and talents to the public. Companies in related industries can also discover potential designers during the participation.

Every year we host the event with diverse activities including competition with award, exhibition, forum, workshop, matchmaking and party. We invited experts from different professional fields not only from Taiwan but also all over the world to share their valuable perspectives and insights.

To set the 12-year milestone of this incredible event, let's get wild together!
